The Most
REALISTIC
 Wood LVP

luxury + performance

Longer, Wider

9"x 60" & 9"x72" planks compared to typical 5" or 7" W x 48" H planks.

Thicker

12 mm thickness compared to typical 3–5 mm LVP planks. Thick planks can be installed next to carpet or hardwood with smaller height differences, all while absorbing more noise than thin planks, making Grandiose great for 2nd-story installations.

Noise Reduction

Thick planks & attached pad absorb more sound—perfect for 2nd story installations.

Low-Gloss finish

Gives a more realistic wood look without excessive shine, or a plastic look.

Softer Underfoot

WPC construction is more comfortable underfoot, increasing the luxurious feel.

ROI for Home Value

Greater increase in home value compared to traditional LVP, with lower cost than hardwood.
